Adobe Photoshop CS6

Adobe InDesign CS6

Autodesk AutoCAD 2012

Sketchup Pro 2015

Microsoft Office Suite

Adobe Illustrator CS6

Hand Graphics

ESRI ArcGIS 10.2

Lumions 3D Visualization

AutoDesk Revit v2012

AutoDesk Civil 3D v2012

AutoDesk 3DS Max Design

Profile

I am an enthusiastic young professional who thrive on the excitement of collaboration - knowledge spillover - and on the discovery of new and exciting opportunities. I exhibit a high level of determination, persistency and the ability to work as part of a team. I have grown professionally, and become self-motivated, passionate about what I contribute, passionate about creating community's that matter, community's that are memorable.

Research Interest

Community Resilience: Assessing a community's vulnerability and predictability towards socioeconomic dynamics.

A new paradigm that has sparingly being researched from a socioeconomic standpoint.

Core Competencies

- + Urban Designs
- + Sustainable Designs
- + Environmental Analysis
- + Community Planning
- + 3D Visualization
- + High-end Residential design and management

Related Experiences

LandDesign Inc., Charlotte NC. June 03, 2015 - June 01, 2016

- + Provides Landscape Architecture support to multi-disciplined design teams.
- + Assisted in the preparation of various plans, including master plans, land use plans, construction plans, planting plans, specifications, reports, studies and supporting documentation, utilizing company and industry accepted standards, methodologies and guidelines.
- + Assisted in the evaluation, selection, and applied standard planning and landscape architecture techniques, procedures, and criteria on varied projects.
- + Assists in the preparation of project drawings, exhibits, calculations, analyses and documents with other engineers, designers and technicians.
- + Takes responsible charge of design work for portions of projects.
- + Performed other duties as necessary and/or assigned by project manager/supervisor

Urban Design Associates, Pittsburgh, PA. [internship] May - November 2012

- + Prepared concept plans, design development and graphic illustration.
- + Performed collaborative studies and analysis of existing site conditions.
- + Worked with landscape architects to compile data and prepared solutions.
- + Researched, gathered and assisted in the systematic analysis of project(s) data.
- + Assisted in design processes [conceptualizing through construction documents].
- + Performed other design related duties upon request.

Attributes

- + Passionate, innovative, proactive with a great sense of urgency.
- + Positive and enthusiastic can-do attitude, with excellent leadership potential.
- + Confident decision maker, accepts responsibility positively.
- + Excellent problem solving and entrepreneurship capabilities.
- + Ability to adapt and adjust to dynamic project demands.
- + Possess experience in construction, irrigation, and planting design.
- + Demonstrates collaborative work attitude and approach.
- + Demonstrates strong competence in design development of high technical and aesthetic standards.
